

Why have we teamed with Waste Free Systems ?

This collaboration between Excellent Edges and Waste Free Systems showcases a synergy of values and goals – a commitment to promoting sustainability, reducing waste, and creating a more environmentally responsible business environment. The partnership reflects the broader global movement towards greener business practices and serves as a testament to the positive impact that can be achieved through such alliances.

As we start to make changes like our new ethically sourced and environmentally conscious paulownia scissor box, we feel now more than ever, we need to be working closer with companies like Waste Free Systems. We hope you can see the need, like we have, to take on this responsibility.

About us

Excellent Edges has been in operation since 1988 which makes us the longest standing company in Australia solely devoted to producing the best scissors available for hairdressers.

We source all of our materials from Japan to ensure you are getting the best possible grades of steel. All of our scissors, including our Japanese brand imports go through our own workshop procedures to ensure you are getting the perfect scissor.

Our company motto is “Scissors for the Serious” and every tool we have created has a specific purpose in mind. You will notice with all of our scissors that they designed to be used for a specific cutting style. Much like unicorns, there isn't one scissor that can be perfect for each type of cutting technique, there are scissors that come close, but essentially it's still a horse with a horn attached to it. Within our range you will find there are tools for specific cutting purposes along with some all-rounders for those who are just after the one scissor.

Besides making the world's greatest scissors, we also have a huge range of accessories including combs, brushes, clips, pouches, cases and mannequin heads.

Mission Statement

At Excellent Edges Scissor Co., we are serious about scissors, and not much else. We have a relentless focus on perfecting the art of scissor-making, pushing the limits of design and functionality to create scissors which align with the creativity of the haircutter using them.

Pete Walstab and his Vision – Owner of Excellent Edges

“Excellent Edges aim is to revolutionize the industry by constantly innovating and embracing new technologies while preserving the time-honoured traditions that have made us experts in our field. Our commitment to excellence goes beyond the ordinary; it's a passion that drives us to consistently deliver better solutions. Join us on this extraordinary path as we redefine what scissors can be and set a new standard for excellence in our industry.”
